

## DOWEX™ MONOSPHERE™ 600BB Inert Resin

Uniform Particle Size Inert Resin for Mixed Bed Demineralization and  
Condensate Polishing Applications  
For the Power Industry

### Description

DOWEX™ MONOSPHERE™ 600BB Inert Resin is a non-functionalized resin used to enhance separation of mixed beds during regeneration. Its density is between the densities of strong acid cation exchange resin and strong base anion exchange resin. It also has a tightly controlled, uniform particle size. These combined properties help ensure the terminal settling velocity is intermediate to that of the cation and anion resins creating an inert "Buffer Zone" between the functional resins following backwash. Separation of the two functional components of a mixed bed reduces the risk of crosshyphenate cross-regeneration improving water quality and reducing rinse time.

### Typical Physical and Chemical Properties

Physical form		White uniform opaque beads
Matrix		Styrene-DVB-acrylate terpolymer
Functional group		None
Particle size distribution		
Harmonic mean diameter	μm	550–650
Uniformity coefficient, max.		1.1
Specific gravity @ 77°F	g/mL	1.14–1.16
Particle density	g/mL	1.15
Shipping density**	g/L lbs/ft <sup>3</sup>	670 42

For additional particle size information, please refer to Particle Size Distribution Cross Reference Chart (Form No. 177-01775).

\*\*As per the backwashed and settled density of the resin, determined by ASTM D-2187

### Suggested Operating Conditions

Maximum operating temperature	60°C / 140°F
pH range	0–14
Bed depth, min.	150 mm (0.5 ft)

\*1 BV (Bed Volume) = 1 m<sup>3</sup> solution per m<sup>3</sup> resin or 7.5 gals per ft<sup>3</sup> resin

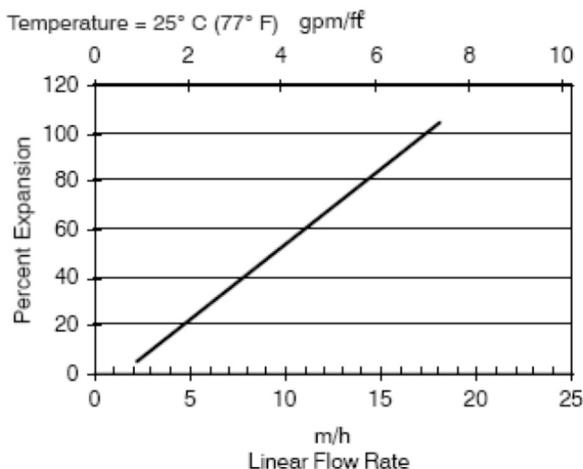

### Packaging

25 liter bags or 5 cubic feet fiber drums

## Hydraulic Characteristics

Figure 1 shows the bed expansion of DOWEX™ MONOSPHERE™ 600BB Inert Resin as a function of backwash flow rate and water temperature.

**Figure 1. Backwash Expansion Data**

**For other temperatures use:**

$$F_T = F_{77°F} [1 + 0.008 (T_{°F} - 77)], \text{ where } F \equiv \text{gpm/ft}^2$$

$$F_T = F_{25°C} [1 + 0.008 (1.8T_{°C} - 45)], \text{ where } F \equiv \text{m/h}$$

## Product Stewardship

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products - from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

## Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.

## DOW™ Ion Exchange Resins For more information about DOW™ resins, call the Dow Water & Process Solutions business:

Warning: Oxidizing agents such as nitric acid attack organic ion exchange resins under certain conditions. This could lead to anything from slight resin degradation to a violent exothermic reaction (explosion). Before using strong oxidizing agents, consult sources knowledgeable in handling such materials.

Notice: No freedom from infringement of any patent owned by Dow or others is to be inferred. Because use conditions and applicable laws may differ from one location to another and may change with time, Customer is responsible for determining whether products and the information in this document are appropriate for Customer's use and for ensuring that Customer's workplace and disposal practices are in compliance with applicable laws and other government enactments. The product shown in this literature may not be available for sale and/or available in all geographies where Dow is represented. The claims made may not have been approved for use in all countries. Dow assumes no obligation or liability for the information in this document.
